DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:
2. A person shall be entitled to a patent unless –
3. (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
4. Claims 1, 2, 4, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Kukharev et al. "Effect of Diffusional Aluminum Siliciding on the Oxidation Resistance of Carbon Steels" (XP-002058977). Kukharev teaches diffusion coating a steel, i.e., iron-based, substrate with aluminum/silicon alloy to a thickness of in excess of 200 microns. See Kukharev et al. (Figure 1).
5. Claims 1-13 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Bayer et al. WO 98/20182 for the reasons of record in the Office Action mailed on 7 October 2005.

Response to Amendment

- I. In view of applicant's amendments and arguments, the claim objections of the Office Action mailed on 7 October 2005 are withdrawn.
- II. In view of applicant's amendments and arguments, the double patenting objection of the Office Action mailed on 7 October 2005 is withdrawn.

Art Unit: 1775

- III. In view of applicant's amendments and arguments, the section 112, second paragraph rejections of the Office Action mailed on 7 October 2005 are withdrawn.
- IV. In view of applicant's amendments and arguments, applicant traverses the section 102 rejection over Bayer of the Office Action mailed on 7 October 2005. Applicant argues that applicant's claim to priority to U.S. Serial No. 08/745,199, filed on 8 November 1996, is earlier than the publication date in 1998 of Bayer et al., and so Bayer et al. is not available prior art under 102(b). However, applicant is only entitled to the priority date of 8 November 1996 if applicant can demonstrate that the claimed invention is provided antecedent support in U.S. Serial No. 08/745,199. See MPEP 2133.01. Applicant has not explained how the claimed invention is provided antecedent support by the parent application, and it is not otherwise apparent. Rejection is maintained.

Conclusion

- 6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
- 7. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory

Art Unit: 1775

action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
